

Galapagos is a mid-sized, clinical stage biotechnology company active in discovery and development of small molecule therapies, many of which are based on proprietary disease-modifying drug targets in disease areas for which there is a need for safe and effective medicines. Galapagos funds its research through alliance payments from its pharma partners, cash generated by its profitable service operations, licensing agreements, and its cash reserves. GLPG0634, its most advanced program in Phase II, is partnered with Abbott Laboratories for up to \$1.35 billion in milestones and double-digit royalties. Together with service operations BioFocus and Argenta, Galapagos' research activities across Europe are successful thanks to our highly motivated staff of more than 800 employees, a unique technology base, and a strong financial position.

For our site in Romainville, we are looking for a

TOXICOLOGIST (m/f full time) - ref. RMV 050

Job Description

You will support the Development team in contributing to the toxicological evaluation of new drug candidates.

In particular, you will:

- Interface with CROs (to discuss budgets, timelines, study plans, results and reports)
- Act as Toxicologist representative in project teams
- Contribute to the selection of the best drug candidates
- Provide the scientific and technical expertise regarding the toxicological profile of chemical series under development within the company
- Report to project teams and senior management
- Contribute to the preparation of scientific and technical dossiers for regulatory purposes.

Profile:

The successful candidate is a pharmacist, veterinarian or biologist with a Master or a PhD in toxicology and at least 5 years of experience in a relevant CRO or in the pharmaceutical industry. He (she) enjoys working in cross functional teams and has excellent oral and written communication skills as well as good command in English (writing and speaking).

At Galapagos, BioFocus and Argenta, we aim to recruit the best people, who stand out among their peers, with integrity and excellent interpersonal and organizational skills. Our employees are the strength behind Galapagos, a highly motivated team, eager to maintain Galapagos' leading position and achieve breakthroughs in pharmaceutical research. Galapagos offers a competitive remuneration package and a dynamic work environment.

Do you have the qualifications for this job opening, and are you up to the challenge of joining our entrepreneurial team? If so, please send your application (preferably by e-mail) to: jobs_fr@glpg.com
