

# 2023 Company Fact Sheet

Galapagos is a fully integrated biotechnology company united around a single purpose: **to transform patient outcomes through life-changing science and innovation for more years of life and quality of life.**

*“Our goal is to **accelerate innovation of transformational medicines** to deliver more years of life and quality of life for people around the world. It is about giving patients what matters: **More time with family and friends. More joy. Longer, healthier, better-quality lives.**”*

**Dr. Paul Stoffels**  
CEO and Chairman<sup>1</sup>

## Pioneering for patients

We aim to address patient needs through transformational innovation. We bring together the best science, technology and next-generation biological capabilities from inside and outside our company.

### IMMUNOLOGY

- Rheumatoid arthritis
- Ulcerative colitis
- Axial spondyloarthritis
- Dermatomyositis
- Systemic lupus erythematosus

**Focus on key strategic therapeutic areas**

### ONCOLOGY

- Non-Hodgkin's lymphoma
- Chronic lymphocytic leukemia, with or without Richter's transformation
- Multiple myeloma

## Diversifying and accelerating our discovery-through-to-commercial portfolio

We combine deep disease expertise and multiple drug modalities to reduce risk and speed time-to-patients.

#### Small Molecules

We are grounded in a long history of research into small molecules.

#### Biologicals

We have a unique approach in developing novel biological medicines.

#### Cell Therapy

We have groundbreaking research capabilities and a point-of-care manufacturing platform for CAR-T.

PRESENCE IN

**15 COUNTRIES**  
2 CONTINENTS

**1200+ EMPLOYEES**

# THEN

More than two decades ago, Galapagos was founded by entrepreneurial scientists to discover new medicines with novel modes-of-action. Since then, we identified numerous novel targets, generated an R&D pipeline, entered into a significant strategic partnership with Gilead, and successfully brought to market a medicine in two indications. We have built an organization based on deep scientific and therapeutic expertise together with a strong financial foundation and a significant commercial footprint in Europe.

# NOW

Today, we are continuing our mission of living innovation by concentrating our efforts in immunology, oncology and other therapeutic areas where we can best accelerate the development of innovative new medicines with transformational impact for patients.

## CARING FOR OUR FUTURE: *Forward, Sustainably* Our call to action by 2028

 <p>Add more <b>years</b> of life and <b>quality</b> of life for patients</p>	 <p>Develop pivotal stage therapies <b>for patients, with patients</b> and the healthcare community</p>	 <p>Be a <b>diverse, equitable and inclusive, and trusted</b> organization</p>	 <p>Be <b>climate neutral</b></p>	 <p>Provide access to our medicines across <b>all continents</b></p>
